

Too Much Church! 5 Dangers Facing Over-Churched Kids

How would you define over-churched kids?

Case Studies: Listen to the following case studies and see if you can recognize these common spiritual dangers facing over-churched kids.

1. Familiar Bible stories lose their power
2. Religious knowledge promotes pride
3. They learn to “pretend” spiritual experiences.
4. They don't feel the weight of their sin and lostness.
5. They often see the ugly side of church people.

Agree / Disagree: Consider the following statements. Mark “A” if you agree and “D” if you do not.

- Feeling bored during a Bible lesson indicates a spiritual problem.
- Kids who don't like church should never be given leadership roles.
- If parents model a passion for God, their children will do the same.
- We should expect children to have self-directed quiet times.
- Children should never be allowed on dangerous mission trips.

Strategic Thinking: What is one change you could make to your ministry this weekend to help over-churched kids grow in their faith?
