

## Fishing for Good News ~ Preschool Review Game

Print the fish and cut them apart. Tape a paper clip to the back of each fish. Make a magnetic fishing pole by putting a magnet on the end of a string and attaching the string to a pole.

To play, put the fish face down on the floor and have kids go fishing. When they catch a fish, read the "good news" on the fish and review that part of the gospel with them. Once all of the fish have been caught, put the truths in order to tell the big story of the Bible.
